

PHARMACY SERVICES ASSISTANT

Reference Number: ST0299

Details of standard

This apprenticeship standard is currently in development and its contents are subject to change

Occupation

The Pharmacy Services Assistant (PSA) works under the supervision of a Pharmacist, Pharmacy Technician, or other accountable healthcare professional. The PSA provides a variety of pharmacy and medicines services to patients, the public and other professional healthcare teams. The PSA supports the delivery of pharmacy services in a variety of pharmacy environments.

A PSA will be involved in supporting the supply, preparation and assembly of medicines and products; issuing them to patients and other healthcare professionals and assisting in providing advice to patients to help them to make effective use of their medicines. They will be responsible for ordering and receiving medicines, as well as their storage, disposal and return. They will have an understanding of healthy lifestyle choices and relevant screening services. They will understand and work to **standard operating procedures (SOPs)**, a set of step-by-step instructions compiled by their organisation to help staff carry out routine operations. SOPs aim to achieve efficiency, quality output and uniformity of performance, while reducing miscommunication and failure to comply with pharmacy regulations.

The PSA will know and understand:

The PSA will be able to:

Dispensing and supply of medicines and medicinal products

- | | |
|--|--|
| <ul style="list-style-type: none"> • dispensing procedures, and practices • the different types of prescriptions • how to complete pharmacy calculations, eg the number of tablets or volume of liquid to be supplied. • different weights and measures eg grams, kilograms, millilitres to litres | <ul style="list-style-type: none"> • receive and log prescriptions • assemble prescribed items, undertake an in-process accuracy check and issue prescribed items • work according to legislative requirements, and organisational policies • order, receive, maintain and issue pharmaceutical stock • provide appropriate advice when authorised on |
|--|--|
