APPRENTICESHIP FUNDING

DID YOU KNOW?

FACTSHEET

The Apprenticeship Levy is an amount paid at a rate of 0.5% of an employer's annual pay bill.

FUNDING RULES

Each year (August - July) the Education and Skills Funding Agency produce a list of rules for employer providers, training providers and performance management.

You can access the current funding rules for 2022/23 here.

APPRENTICESHIP LEVY

As an employer, you have to pay Apprenticeship Levy each month if you:

- have an annual pay bill of more than £3 million

- are connected to any companies or charities for Employment Allowance purposes and have a combined annual pay bill of more than £3 million

DID YOU KNOW...

There are different funding rules for different apprenticeship start dates. You must follow the funding rules that apply to each apprentice.

APPRENTICESHIP FUNDING

DID YOU KNOW?

FACTSHEET

Did you know that if you're not a levy-paying organisation you can receive funds from one that is? Or if you are, that you can transfer some of your funds to help others?

LEVY TRANSFER

Transfer funds can pay for the costs of training and assessment. Those making a transfer support other employers in their local health and social care systems and support the skills base within the wider economy.

Find a business to fund apprenticeship training here. As a business of any size, you can use this service to apply for funding from large businesses that want to fund 100% of your apprenticeship training and assessment costs.

NON-LEVY PAYERS

For new apprenticeships starting on or after 1 April 2019 you pay 5% towards the cost of apprenticeship training. The government will pay the rest (95%) up to the funding band maximum.

You can pay the difference from your own budget if the price of training is more than the funding band maximum.
