 **Connect**

 **Learn**

"The chance to network and develop further will be invaluable"

## Connect

**AoA Connect is a social-networking app available exclusively to members, letting you meet other apprentices across the UK. Share experiences and knowledge, build a professional support network, and join groups based on location, industry or interests... and much more.**

You can expect monthly themes explored through a variety of activities, such as online events with industry experts, socials and challenges. Read blog posts from your peers to learn from their experiences and contribute yours. AoA's weekly polls give you a snapshot view of your peers' perspectives. You can access industry news and find out about exclusive opportunities as well as awards that you can win! Confused? Easily ask questions to your peers in the main feed, or venture into 'groups'. You can also help someone following in your footsteps.

## Learn

**AoA Learn gives members access to a multitude of learning and development content to supplement your apprenticeship experience.**

Delivered through a range of mediums, choose the content relevant for your apprenticeship to count towards your off-the-job training... and get insights into your progress. There's also chance to complete our Career Development Programme.

## Join your community

Our work is led by our Apprentice Council to ensure that everything we do meets apprentices' needs
