NHS

DIGITALLY TRANSFORM YOUR OPERATIONS

LUNCH AND LEARN

THURSDAY 3RD OCT 1PM – 2PM

Remit Training has been a trusted partner of The NHS, working with 22 trusts. During this lunch and learn, find out how Remit can support your digital transformation with apprenticeships that have tailored, flexible and blended delivery models to best suit the needs of your team. You will also receive a managers guide!

Ofsted Outstanding Provider

NHS

WE HAVE HELPED THE NHS SAVE

£66,000

IN RECRUITMENT COSTS

When you partner with Remit, you have access to our dedicated recruitment team. Our team are specialists at resourcing digital talent which comes at no extra cost. Just 1 apprentice in each of the 202 trusts we don't currently support could save the NHS a further £600,000 in unnecessary fees and costs.

YOUR LEARNER DATA IN REAL TIME

We are forensic about data, we believe it's critical to ensuring apprentices engage, progress and achieve. Monitoring apprentice progress across multiple geographies, programmes and trusts can be challenging, that's why we'd give you a tailored dashboard, centralising all your key apprenticeship information in one powerful tool. Powered by industry leading software, and serviced by our in-house developers, you see your learner data in real-time, 24/7 through any device.

PARTNERSHIPS

We're a partner not just a provider. Our learner and partner success model is catered around relationship, transparency and impact underpinned by our teaching and learning ethos. We strive to achieve excellence, by working closely with both learners and line managers to identify skills needs and to maximise the learner experience. By empowering your colleagues we can work with your teams and line managers to understand current skills and where teams need to develop in order to meet the NHS' vision of a digital work force. Upskilling and training your teams to be the digital leaders of tomorrow.
